EXECUTIVE SUMMARY (one page)

In this annual report, we take the opportunity to report and reflect on our accomplishments during the 2021-2022 academic year, and share our goals and objectives for the upcoming academic year. During this period, our commitment to the implementation of a student conduct program that is learning-centered, community-focused and procedurally sound remained steadfast – and so is our dedication to continuously enhance our program in those areas. While our academic year was undeniably reshaped by an unexpected environmental change due to the continued challenges posed by COVID-19, which caused to reevaluate our goals and priorities prior to the end of the year, we have much to celebrate in terms of accomplishments.

Our biggest points of pride this year are highlighted below:

- SACS hired the office's first non-clinical graduate Social Work intern to serve as Student Wellness Education Intern to assist with AOD responsibilities due to vacant position. While the intern had to resign from his appointment due to personal reasons, a model was created to help advance the University's AOD program while alleviating some of the caseload currently assigned to student conduct and case management.
- The Assistant Dean for Student Accountability & Community Standards developed and implemented a public CARE Report form to serve as entry point for student of concern referrals, as well as emergency absence notification, emergency grant fund and medical withdrawal requests to streamline the workflow and documentation process for the case management team.
- SACS developed and implemented a partnership with the IFC that will serve as a model for all hearings involving student organizations. This has enabled us to encourage self-governance among governing councils, increase transparency in the resolution of complaints against student organizations, as well as foster collaboration between the Dean of Students Office and student organizations.

The Student Accountability & Community Standards departmental plan for the 2022-2023 academic year sets forth goals that will build upon last year's accomplishments and address identified areas of improvement. In the coming year, we will:

- Set up the Student Interface in Advocate to streamline the student accountability process by providing students easy access to conduct-related letters, meetings, submission of sanctions, etc.
- Implement "custom dashboard" in Advocate for real-time conduct statistics available to Student Affairs leadership; quarterly statistics to be delivered to Student Affairs Leadership in accordance with established process.
- Further develop Public Incident Report Form to serve as an entry-point for services provided by our office (such as disciplinary referrals, disciplinary verifications, background checks for admission/readmission, inspection of disciplinary records, etc.)
- Development of investigation protocol for Hazing and other incidents involving student organizations to ensure fair and prompt resolution of complaints.
- Develop workflow for collaboration with Housing and Residence Life to ensure consistency in how incidents and complaints are addressed across areas.

Section I: Department Overview

Vision

Student Accountability & Community Standards is guided by the belief that a community exists on the basis of shared values and principles. We aim to foster a community, at Salisbury University and beyond, where integrity and respect are the established norm, and where each community member understands that this is a responsibility that must be shared by all. Students, through their interactions with our office, will feel empowered to (re)define their behavior and be(come) responsible members of their community

Mission

Housed within the Dean of Students Office, the mission of Student Accountability & Community Standards is to maintain the integrity of the campus community and foster student learning, development and success by upholding the University's community standards through proactive programming for the campus community, individual student conversations, alternative resolution practices, and the establishment of a fair and educational framework to address potential violations of the Code of Community Standards.

Goals

The goals of Student Accountability & Community Standards are to:

- Educate members of the campus community about applicable policies, regulations and statuses governing their behavior.
- Uphold community standards at the University, in the local community and beyond through the resolution of alleged violations of the University's Code of Community Standards through a process that is procedurally sound, community-focused and learning-centered.
- Provide an outlet for community members to address conflict through alternative resolution practices.
- Encourage learning outcomes, personal responsibility and accountability, as well as responsible decision-making through the services, programs, and activities provided.

Scope of Practice – Services Provided

Student Accountability & Community Standards provides the following services to the campus community:

- Develop, interpret and implement the Code of Community Standards.
- Investigate and resolve alleged violations of the Code of Community Standards through the implementation of a student accountability process that is procedurally sound, community-focused and learning centered.
- Develop and implement adaptable resolution pathways for complaints and/or reports of misconduct that do not constitute a violation of University policy or in circumstances where a formal resolution is not desired by the complainant.
- Recruit, train and supervise Case Administrators, Community Hearing Board members and other participants in the student accountability process.
- Create learning opportunities for students through our services, programs, activities, and educational sanctions.
- Provide programming on accountability, integrity, civility and other ethical issues to the University community.
- Advise University and Student Affairs leadership, and other members of the University community, on issues of student non-academic misconduct.
- Maintain student disciplinary records, including records pertaining to non-academic misconduct, academic misconduct and/or violations of Housing and Residence Life policies.

- Provide disciplinary verification for study abroad programs, transfer admission applications or applications for graduate/professional programs, employment, etc. upon verification of authorization to release such information.
- Review previous disciplinary history reported on applications for admission in accordance with established procedures, and provide a recommendation to the admissions office, which will make a final determination of acceptance.

Student Learning Outcomes

Students who engage in services, programs, and activities provided by Student Accountability & Community Standards will be able to:

1. Articulate Salisbury University's standards of behavior outlined in the Code of Community Standards
2. Recognize why standards of conduct exist and why the University is concerned about student behavior.
3. Identify how their actions are consistent or inconsistent with their personal and community values and expectations.
4. Develop an action plan that will help them be successful at Salisbury University and beyond, and avoid future violations of the University's Code of Community Standards.
5. Describe how their interaction with the Student Accountability & Community Standards will help them (re)define their behavior and be(come) responsible members of the community.

Section V: A Summary of Achievements Related to Student Affairs and SU's Strategic Plan

*The following are examples of ways in which the Unit is assisting Student Affairs and the University achieve strategic plan goals. Please use bullet or numerical formatting to provide examples of **significant** achievements. Some achievements may apply to multiple goals. Use measurable outcomes as much as possible.*

Goal 1: Enrich academic success and student development.

- Case Administrators and Community Hearing Board members continue to support the department's mission to foster student learning, development and success through the assignment of educational requirements (203), targeted interventions (129), and restorative actions (23). Additionally, the following administrative sanctions were assigned:
 - Warning: 141
 - Probation for one semester: 125
 - Probation for two semesters: 33
 - Probation (other): 16
 - Suspension: 4
 - Dismissal: 0
- SACS utilized 3rd Millennium Classrooms to provide awareness and intervention online education courses to incoming and current students, as follows:
 - Education and awareness modules were used as part of the overall proactive strategy to educate students on responsible decision-making surrounding the consumption of alcohol, including modules assigned to all incoming students and members of fraternity and sorority life:
 - 3,204 incoming students assigned Alcohol Wise, with a 48% completion rate for Part 1 and 24.03% completion rate for Part 2.
 - 1,179 incoming students assigned Alcohol Wise 21+, with a 21.37% completion rate for Part 1 and 12.47% completion rate for Part 2.
 - 4,217 incoming students assigned Consent & Respect with a 35.5% completion rate.
 - 245 new members of fraternities and sororities assigned Greek Wise, with a 44.9% completion rate for Part 1 and 6.12% completion rate for Part 2.
 - Intervention modules were used as part of the student accountability process to support student learning and promote responsible decision-making after an incident has occurred, including:
 - "Under the Influence" – 94 assignments
 - "Alcohol-Wise 21+" (sanctioning) – not assigned
 - "Marijuana 101" – 27 assignments
 - "STOPLifting" – 4 assignments
 - "Conflict-Wise" – 3 assignments
 - "Nicotine" – not assigned
 - "Other Drugs" – not assigned

Goal 2: Inspire a campus culture of inclusive excellence, support, and collaboration.

- The University received 248 reports or complaints for review under the University's student accountability process (520 individual incidents) during the 2021-2022 academic year. The vast majority of incidents was resolved administratively – 9 individual incidents were ultimately adjudicated through board hearings over the course of the year. Additionally, the following meetings were scheduled:

- 486 pre-hearing conferences
- 45 administrative hearings
- 17 Medical Amnesty meetings
- 10 administrative conferences
- Four (4) students were suspended or dismissed for egregious and/or repeated violations of the University's standards of conduct during the 2021-2022 academic year.
- Six (6) incidents were diverted from the student accountability process and instead handled under the Responsible Action Protocol which aims to reduce barriers to seeking help in cases of alcohol and/or drug-related emergencies by providing relief from administrative or disciplinary action on the part of the University under certain circumstances if either a University official or other authority is contacted in a timely fashion.
- Student Accountability & Community Standards implemented an Informal Resolution Process to help individuals resolve interpersonal conflicts in those instances where the conflict do not rise to the level of a policy violation and/or the parties involved do not want to pursue a formal resolution to the matter – 2 individual incidents were routed to informal resolution during 2021-2022.
- Student Accountability & Community Standards continued to partner with the Office of Admissions and the Office of the Registrar to review applications for admission and readmission with disciplinary disclosures. Nine (9) applications were processed during the 2021-2022 academic year.

Goal 3: Support access, affordability, and academic excellence.

-

Goal 4: Deepen engagement with our community.

- Twenty-three (23) students were assigned restorative actions as part of the student accountability process. Restorative actions are designed to strengthen our community by providing those who caused harm with an opportunity to repair the harm caused as much as possible and regain the trust of the community.
-

Goal 5: Enhance environmental, social, and economic sustainability.

- Use of LiquidFiles, the University's secure file sharing solution, which has enabled the department to securely share confidential files with internal and external recipients while cutting printing and mailing costs operating in a more environmentally-conscious manner.
- Use of Microsoft Bookings to effectively and economically manage staff schedules and appointments. Bookings allows the department to spend less time – and, therefore, resources - scheduling and more time meeting with those we serve.
- Use of Qualtrics forms to meet various departmental needs, increasing time and resource efficiency over the use of paper and/or PDF forms, such as: Complainant's Choice of Resolution form, Honesty Statement form, Request for Informal Resolution form, etc.
